SUMMARY

I worked as a quality assurance operator for 5.5 years, and during this time, I participated in projects by effectively using information technologies and ERP systems. Due to my intense interest and desire, I took a professional step in the IT sector. I am interested in coding, willing to develop complex solutions, and have strong creative thinking skills. I can work with my team members and embrace communication skills as a principle. I can quickly grasp new technologies and concepts to develop innovative and creative solutions. I am always eager to learn different technologies, tools, and libraries, and I aim to increase my knowledge by gaining experience and working on projects with real teams, embracing a lifelong learning philosophy.

WORK EXPERIENCE

06.2017-07.2022   **Baycan Electric**
